

P2RX TOPIC HUBS

<http://p2rx.org/P2InfoNexpert/alphabetic.cfm>

Aerospace	Pollution Prevention (P2) for Arts Education
Agricultural Teaching Labs	Pollution Prevention (P2) for Consumers
Auto Body	Pollution Prevention (P2) Internships
Auto Repair	Pork Production
Auto Salvage-Great Lakes Region	Printing-Flexography
Biotechnology Labs	Printing-Lithography
Clean Snowmobiles	Product Stewardship
Climate Change	Public Lands
Community Growth	Publicly Owned Treatment Works
Construction Science Education	Regulatory Integration
Dioxin	Residential Construction
Dry Cleaning	Semiconductor Manufacturing
Economic Incentives	Ship Building and Repair
Electric Utilities	Ski Areas
Electronic Waste	Sustainable School Design
EMS	Technology Diffusion
EMS in Government	Textiles
Energy Efficient Schools & Students	Wood Furniture Manufacturing
Environmental Management Accounting	
Environmental Measurement	
Environmental Mentoring	
Fiberglass Fabrication	
Food Service	
Green Procurement	
Hospitality	
Household Hazardous Materials	
Industrial Composting	
Integrated Pest Management (IPM) for Schools	
Landscaping	
Lead	
Lead Sinkers	
Lean and Environment	
Marinas and Small Boat Harbors	
Meat Processing	
Mercury	
Mercury-Automotive	
Mercury-Dental	
Mercury-Health Care	
Mercury-Schools	
Mercury-Thermometers	
Mercury-Thermostats	
Metal Fabrication and Machining	
Metal Finishing	
Oil and Gas	
P2 and Environmental Security	
P2 for Area Source Categories	
P2 for Hospital Sterilizers	
Paint and Coating Manufacturing	
Pollution Prevention (P2)

User's Guide to P2Rx™ Topic Hubs™

How To Use P2Rx™ Topic Hubs™

Topic Hubs are Web-based guides to peer-reviewed pollution prevention information. They are contributed by the eight regional P2Rx centers and conform to structural and content standards. To access a Topic Hub, go to www.p2rx.org/hubs/ or to any P2Rx center Web site.

Access all Topic Hubs

Search hub by keywords

Navigate to all subsections

Table of Contents

A keyword search option is available from every page, as well as access to all other Topic Hubs through a menu bar. Typical Topic Hub subsections include the following:

- **Background and Overview**—Industry statistics, demographics, environmental and safety considerations
- **Operations**—Key processes and raw materials used
- **Reasons for Change**—Economic and environmental impact from implementing P2
- **P2 Opportunities**—Technologies and practices that reduce hazardous waste
- **Where To Go for Help**—How to contact programs offering expertise to this community
- **Complete List of Links**—Links to the “best of the best” online resources about this subject

A list of best resources for each subsection with abstract, source, and link

Best Resources

Topic Hubs provide links to the “best of the best” resources most relevant to each subsection. Resources are carefully reviewed and selected for quality of research, depth of coverage, and endorsement by P2 experts.

Articles, reports, case studies, fact sheets, handbooks—most are available online

Complete List of Links

Click to see all resources listed for the Topic Hub organized by type or sorted alphabetically by title. Information about the resource includes title, a short abstract, source, and a link to online documents.

P2 programs offering expertise in the topic with up-to-date contact information

Where To Go for Help

Each Topic Hub provides national and regional programs that offer expertise on the subject.

www.p2rx.org

Topic Hubs are Web-based guides. You can access them at P2Rx or from any regional center Web site. See back panel of this flyer for URLs.
